

# Delaware Requires New License for Fishing in Fresh and Tidal Waters

Delaware has new fishing license requirements for 2008: A fishing license now covers both fresh and tidal waters; and for the first time, Delaware residents and non-residents fishing in tidal waters must be licensed. Whether fishing fresh or tidal waters, the license costs the same for residents (\$8.50) as in past years, but costs more for non-residents.

The passage of House Bill 107 into law requires anglers in Delaware to have a fishing license for both fresh and tidal waters, while the license also is valid for recreational crabbing and clamming. The new licensing law includes new fees for charter boats and head boats and an option for a recreational boat fishing license.

## DELAWARE FISHING LICENSE (Effective Jan. 1, 2008)
